Professional Summary;

A dedicated and versatile Software Developer with hands-on experience building web and mobile applications. Skilled in front-end development with growing expertise in backend technologies. Strong problem-solving abilities, a keen eye for detail, and the ability to collaborate effectively within Agile teams. Passionate about creating efficient, user-centered digital solutions and continuously learning new technologies to deliver innovative results.

Skills

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, HTML, CSS
- **Frameworks & Libraries:** React.js, React Native, Bootstrap
- **Backend & Tools:** Node.js, Vite
- **Databases:** PostgreSQL, MongoDB
- **Version Control:** Git, GitHub
- **UI/UX Design:** Wireframing, Prototyping
- **Design Tools:** Figma, Visily
- **Agile & Project Management:** Scrum, Sprint Planning, Stand-ups

Soft Skills

- Proven leadership and team collaboration
- Strong communicator with excellent interpersonal skills
- Strategic thinker with strong problem-solving abilities
- Highly adaptable, proactive, and quick to learn
- Committed to mentorship and community engagement

Experience & Projects

Rugyeyo Farm

Role: Developer Intern

Duration: June 2025 - December 2025

- Developing and maintaining user-friendly interfaces in Django and React Native to enhance market accessibility.

- Collaborating with cross-functional teams to implement new features and improve overall application performance.
- Assisting with backend integration by working with RESTful APIs and contributing to basic backend tasks when needed.
- Participating in debugging, testing, and code reviews to ensure high-quality and consistent software delivery.

Technologies Used: Django, React Native, [React.js](https://reactjs.org/), PostgreSQL, Tailwind, Git

Karibu Grocery Ltd. Software Solution

Role: Developer

Duration: 6 Weeks

- Designed and developed an inventory management system using JavaScript, Node.js, and modern frontend tools for a wholesale produce distributor.
- Built key features including stock management, credit sales tracking, procurement workflows, and automated calculations.
- Implemented secure user authentication, intuitive dashboards, and a fully responsive user interface for smooth usability.
- Engaged directly with the end users to understand their needs, refine system features, and ensure the solution supported their daily workflows, improved efficiency, and addressed real business challenges.

Technologies Used: JavaScript, Node.js, MongoDB, HTML, CSS, Bootstrap

Education

- Certificate in Software Engineering – Refractory Academy, 2025
- Uganda Certificate of Education (UCE) – Fort Portal Senior Secondary school, 2020

Certifications & Achievements

- Certification in Software Engineering, Refractory Academy – 2025
- Certification in Agile project management, HP Life - 2025
- Certification in Elements of AI, Elementary AI - 2025

Languages

- Rutooro: Native
- English: Fluent
- Luganda: Proficient
